Professional Experience

Employment and Workforce Analytics Consultant

Dec 2023-present

ACCES Employment, Toronto, Canada

- Developed and deployed Dashboards in POWER BI for large datasets - anywhere between 300 - 100k+ data points to offer timely business insights on Workforce and employment metrics tracking Job Seeker engagement, employment potential, participation rate among others.
- Deploy pre-event and post-event surveys for Job Attraction and Community Engagement webinars to collect and analyse event participant sentiments
- Present findings to Senior Management team for tailoring programs for the target audience - pre-arrival clients planning to land in Canada
- Analyse labor market surveys filled by clients and derive actionable insights for our Job Development to engage employers and clients for Job Placement
- Deliver Job Search, Sector Trends, Community Engagement webinars to participant size of 40+ per session leading to Job Placement rates of 80%
- Act as a business analyst and liaise with Online Services team to introduce new features in Salesforce to capture client data for better program reporting to funders.

Recruitment Consultant

Jun 2022-July 2023

WilsonHCG , Toronto, Canada(Client base - New Jersey, US)

- Executed the end-to-end recruitment by serving as a technology recruitment partner for a major pharmaceutical and healthcare client in the US
- Managed an active desk of 20+ job requisitions at any given time, engaged with global business leaders through recruitment strategy meetings, closing the roles within 40 days

- Skilled in leveraging Gartner Talent Intelligence reports to identify talent demand and supply and utilized various recruitment/sourcing systems such as Taleo, Avature and LinkedIn Recruiter suite for filling roles
- Prepared KPIs to analyse Recruitment Group's indicators such as aging requisitions > 60 days, requisition distribution by team member and hiring manager to inform new requisition allotment

IT Recruiter

Jun 2021-May 2022

Randstad Technologies,Toronto, Canada

- Worked in a fast-paced agency setup, overseeing IT talent sourcing and deployment for Atlantic Canada client market
- Fulfilled contract, contract-to-hire, permanent positions with many roles getting filled in < 48 hours for scaling client business
- Nurtured key IT talent and built a robust talent pipeline, positioning candidates for client needs leading to active placement before the requisition was created

Independent Consultant

Dec 2018 - July 2020

Junior Manager - Human Resource Development

Sep 2015 -Nov 2018

Steel Authority of India, Kolkata, India

- Oversaw learning and development function for 1200+ marketing workforce by managing the end-to-end training identification and delivery
- Worked with internal HR stakeholders and regional teams successfully managing the transition from ISO 9001:2009 TO ISO 9001:2015 certification by enabling the revision of 45 Service Operating Procedures(SOPS)
