Terms and Conditions

Interest Charges: Interest begins on cash advances, Line of Credit cheques, purchases (insurance premiums and retail) and other amounts on the day the transaction is charged to your account (the posting date). Interest is charged to your account monthly. All amounts that are charged to your account, less amount credited to your account, constitute the debit balance. Once your debit balance is paid in full, any residual interest will appear on the following month's statement. The residual interest charge represents the interest for the period from your statement date to the date the full payment was credited to your account.

Monthly Interest Calculation: (the average daily debit closing balance for your billing period) X (the daily version of the variable annual interest rate as set out in your Line of Credit Agreement) X (the number of days in your billing period). Different interest rates may apply to different periods within your billing period. If this occurs, a separate calculation will be made for each interest period within your billing period.

You have many convenient ways to pay:

- . Pre-authorized debit
- . Telephone
- . Online Banking
